# Taking an Independent Path: Strategies for Low Risk Sourcing of Components in a Constrained Market

---

LED lighting industry looks to independent distributors to address chronic shortages in the availability of electronic components

Direct sourcing of electronic components for the LED lighting industry used to be pretty simple. An OEM would order direct from the manufacturer or through authorized distributors to obtain any required components. There was usually no need to look any further.

Today, the challenges of a highly stressed supply chain are forcing many LED OEMs to rethink the way they source components. With parts such as multi-layer ceramic capacitors (MLCCs) and other low-cost components in chronic shortage with extended lead times for delivery, manufacturers must be able to get these parts on-time at the lowest possible cost without assuming additional risk.

As a result, many are turning to independent or hybrid distributors for long lead-time parts. The primary caveat: the components must meet the specifications thereby avoiding compromising the integrity of the end product. In other words, LED lighting manufacturers want components that can be traced back to the original manufacturer.

For many companies, sourcing parts from the independent channel requires a significant shift in mindset. It also requires a comprehensive strategy for identifying and working with reliable independent stocking distributors to ensure they get components they need, when they need them.

“For LED manufacturers there has been harmony in the supply chain for most of the past decade, so the need to identify alternative suppliers has not been as pressing as it is now,” says Mike Thomas, vice president and global general manager at Classic Components, an independent distributor based in Torrance, CA. “That means many companies have not invested a lot of time or attention strategizing about how to use independent distribution channels effectively.

The process begins, he says, with understanding how to distinguish one independent distributor from another. This often comes down to a mixture of experience, reputation and the extent of the supplier’s global sup-

ply network. Therefore, it is critical to understand the quality management systems of your independent partners.

#### Know Your Source

According to Thomas, the mantra in his industry to eliminate risk is "know your source." To accomplish this, leading independent distributors invest millions to manage

global supply networks, rate/prioritize suppliers, establish preferred supplier relationships and acquire the latest inspection equipment and utilize effective Quality Management Systems (QMS).

"Over time, companies like ours have developed a very complex method of identifying and eliminating risk," says Thomas. "That includes knowing

how to inspect and test components that come in to our facility, but also goes well beyond that."

It also means analyzing and inspecting sources with an investigative diligence. What path did the parts take to get there? Who is the manufacturer and how is that relevant? Where was it made? How was it shipped and packaged? Is demand of a component strong enough to make its availability viable? Only thorough examination and assessment of all these factors, in conjunction with traceability, can the risk be truly mitigated.

"When we purchase components like MLCCs, for example, we are purchasing from a direct source," explains Thomas. "That could be a regional or foreign distributor, an OEM partner or direct from the factory."

To verify the chain of custody, traceability documentation can be provided that identifies the name and location of all the supply chain intermediaries from the part manufacturer to the direct source of the product. If this traceability is unavailable, a risk mitigation plan is required. Finally, visual inspection, testing and physical analysis are performed on all incoming products.

#### Purchasing Power

The truth is that many of the shortages were predicted some time ago. As a result, leading independent stocking distributors like Classic Components have spent the past few years engaged in a long-term strategy of identifying, and investing in, directly sourced critical electronic components.

Web: [www.warehouseequipment.com](http://www.warehouseequipment.com)

First there was 4 square...  
and now the **REVOLUTIONARY 5 Square® Box!!**

You've struggled with 4 Square boxes for years - you know how small, cramped and time consuming they are. Finally, there is a solution that allows you the space you have always needed.

The **5 Square® Boxes** (5" x 5" x 2-7/8") provide up to 88 in<sup>3</sup> of interior volume which more than doubles that of most existing boxes on the market.

Create a robust and unrivaled infrastructure for the life of your facility with the **5 Square® Products!**

**Fire Signal**

- TWICE THE VOLUME AS MOST BOXES
- SAVE LABOR...INCREASE PROFITS
- ELIMINATES TROUBLESHOOTING TIME AND COST
- FULLY UPGRADEABLE SYSTEM
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES
- AVAILABLE IN ZINC OR RED

**Telecommunications**

- INTEGRAL CABLE MANAGEMENT
- SAVE LABOR...INCREASE PROFITS
- FACILITATES MIN. BEND RADIUS REQUIREMENTS
- SUPPORTS CURRENT AND EVOLVING SYSTEMS
- SUPPORTS PoE PLUS
- SPECIFIED BY ENGINEERING FIRMS, HOSPITALS, UNIVERSITIES & GOVERNMENT AGENCIES

By doing this, independent distributors protect the supply, but are also able to lock in lower prices by making purchases before the inevitable changes driven by reduced supply and increased demand.

To protect high-volume orders, a distributor can lock in prices and delivery dates for many months at a time. This ensures that the inventory will be there when the customer needs it and not sold to someone else.

In some cases, they can even make speculative purchases for a customer and/or provide financing to purchase inventory when a qualified client has capital constraints.

#### Global Networks

Another direct source for high demand parts comes from tapping into a large global network. Because of the worldwide demand for components, independent distributors have

expanded globally and placed sourcing experts in key supply markets.

For example, in addition to its 60,000 square foot facility in Torrance, California, Classic Components has established 12 regional offices in strategic locations throughout the world to support its global distribution business. The company boasts nearly 200 employees, who specialize in various aspects of the business, including supply chain, quality, technology and logistics.

The buyers can develop an intimate knowledge of regional supply chains with the expertise to find and manage quality component suppliers. These experts then leverage these relationships to bring the best price and delivery to their customers.

“By using regional quality centers and logistic hubs, we have the flexibility to purchase components from

any country, in any currency, and then ship them to anywhere they are needed,” explains Thomas.

He gives the example of a customer in Mexico that wants components from Taiwan, due to availability. If the Taiwanese supplier will only sell to local companies, Classic Components can purchase the components from its satellite office located there. Later the stock can be transferred or sold to another branch office before it is ultimately delivered to the customer in Mexico.

Classic’s global logistics can also help to manage or avoid tariffs by shipping to and from our international hubs in Hong Kong and the UK.

#### Rigorous Vetting

Another way to ensure the reliability of the independent distributor is to ensure they are thoroughly vetted. Established companies are used to

# We've Got You Covered

**SAVE Time & Money with Kwikon ENT & Fittings compared to traditional EMT**  
Kwikon Electrical Nonmetallic Tubing (ENT), fittings, slab boxes and accessories are designed to work together and provide the most robust concrete-tight ENT system on the market.

## KWIKON ENT

- Color-coded stripes for easy cable identification
- Available in coils, 10' sticks, and reels
- Lightweight and flexible for easy install that reduces labor by up to 50%

## KWIKON FITTINGS

- Six locking tabs for unbreakable connections
- Concrete-tight, requiring no solvent welding or tape
- Fire, pull and impact resistant

## KWIKON SLAB BOXES

- Boxes are installation ready and concrete-tight
- Approved for support of ceiling fans up to 35 lbs and luminaries up to 50 lbs
- Clear View removable cover for marking visibility and prevents slurry or stucco from entering the box

## KWIKON FORM STUBBIES

- Eliminate the need to drill to the deck
- Available in the original stubby design, the angled version and the Multi-Link
- Protects the ENT from potential damage during the removal of wood forms

complying with frequent requests for audits. In fact, some of the robustness of the quality systems implemented by independent distributors can be attributed to this activity.

### Continuing Shortages

With significant shortages in many high usage electronic products needed in the LED lighting industry expected to continue for at least the next 2-3 years, the independent distributors' seat at the electronic components sourcing table has never been more relevant.

Through investment in developing deep global networks, inspection, authentication, inspection and quality systems, independent stocking distributors stand ready to provide LED lighting OEMs a robust option to navigate the white waters of international supply nimbly, effectively, and without the risk.

# BURNDY® Announces the Release of the

## New WILEY ACC-FPV90 Wire Management Clip

BURNDY®, a leading manufacturer and provider of wire management solutions to the Solar PV industry, announces the addition of the new ACC-FPV90 wire management clip to the WILEY line.

The ACC-FPV90 wire management clip is made of corrosion resistant 304 stainless steel, which makes it a durable, long lasting and reliable solution for all environments. The ACC-FPV90 is easy to install and slides 90 degrees on to module frames of various thicknesses. The ACC-FPV90 accommodates 1 to 2 PV cables up to 8.0mm in diameter. The rolled edges are designed to help protect cable insulation from damage. ACC-FPV90 clips are the perfect solution for keeping the PV installation neat, clean and free from ground faults.

- Innovative design that allows for quick and easy installations
- High quality, long-lasting, labor saving wire management solution
- Corrosion resistant 304 stainless steel provides outstanding durability and performance in all environments
- Snake tongue tabs securely anchor clips to module frames or purlins
- Compatible on modules/purlins with a flange thickness range of 1.0mm to 3.0mm
- Wire Diameter Range: 5.0mm to 8.0mm per each wire

- Installs in a 90 degree orientation
- Considerate lead in for installation without tools
- Accommodates all types of PV cable
- Rolled edges protect cable insulation from damage
- Lasts for the lifetime of the Solar PV system
- Recommended for outdoor use
- RoHS Compliant
- UL1565 Listing pending
- Environmentally Tested - UL2703 & ATSMB117
- Custom designs are available upon request

# Platinum Tools® Announces New Unloaded Patch Panels at the 2019 NAB & ISC West Shows; Now Available

Available in Shielded and Unshielded, and 24-Port and 48-Port Configurations

Platinum Tools®, the leader in solutions for the preparation, installation, hand termination and testing of wire and cable, is proud to announce the launch of the new shielded and unshielded Unloaded Patch Panel line during both the 2019 NAB Show, held in Las Vegas, Nev. from April 8-11 at the Las Vegas Convention Center, booth # C11447 and ISC West 2019, held in Las Vegas, Nev. from April 10-12 at the Sands Expo and Convention Center, booth #6035. The new 24- and 48-port line is now available.

“Platinum Tools is known as a leader in providing products and solutions for the structured wiring networking world of data, voice, and video,” said Lee Sachs, Platinum Tools, Inc. president and general manager. “Our Unloaded Patch Panels make media integration easy, flexible, and field-configurable by populating the ports as needed.”

The Unloaded Patch Panels make it easy to mix and match keystones, replace a damaged port, and add new runs. They also make category upgrades easy, maximize limited rack space, and are perfect for residential or small office applications.

Unloaded Patch Panel 24 Port (p/n 641-24U):

- Unshielded
- 24 port, 1U, UTP, 19 in.
- MSRP: \$25.25

Unloaded Patch Panel 24 Port (p/n 642-24SU):

- Shielded
- 24 port, 1U, STP, 19 in.
- MSRP: \$32.15

# Platinum Tools® Launches MapMaster™ mini RJ45 Pocket Cable Tester at 2019 NAB & ISC West Shows

Now Available, the MapMaster™ mini Pocket Cable Tester (p/n T109C) Maps Multiple Locations of RJ45 Network Cables and Detects Shorts, Opens, Miswires, Reversals, and Split-Pairs

Platinum Tools, the leader in solutions for the preparation, installation, hand termination and testing of wire and cable, is proud to announce the launch of the MapMaster™ mini Pocket cable tester (p/n T109C). Now available, the MapMaster™ mini has an MSRP of \$59.95 USD and will be featured during the 2019 NAB Show, held in Las Vegas, Nev. from April 8-11 at the Las Vegas Convention Center, booth # C11447, and ISC West 2019, held in Las Vegas, Nev. from April 10-12 at the Sands Expo and Convention Center, booth #6035.

“The MapMaster™ mini RJ45 cable tester maps multiple locations of RJ45 network cables and detects shorts, opens, miswires, reversals, and split-pairs,” explained George Jang, Platinum Tools, Inc. product manager. “A built-in tone generator with four different tone combinations can be used with a tone probe to detect where a cable is routed and the location of the end of the cable. Every installer should have this on hand for every installation, troubleshooting, and maintenance calls.”

The MapMaster™ mini determines wire condition, whether good or faulty, and displays it on its LCD display. A set of five mapping remotes is included for locating cables terminated in wall jacks or patch panels. The MapMaster™ mini also identifies the patch panel port where network cable is terminated and can find and fix the position of exposed or hidden cables.

Additional features include:

- Large LCD displays TIA/EIA568A/B wiremap sequence & easily identifies faults
- Identifies Network ID-Only Remotes Set #1-5
- Compatible with up to two test and map remotes
- Quickly identify unlabeled network cables

- Trace/locate network cables and locate breaks/opens in network cabling
- Single multi-function button operates test functions, tone generation, and ID-Only remotes location
- Self-storing remote
- Auto power off prevents depletion of battery power

# PHASE CONVERTERS

RUN THREE-PHASE EQUIPMENT FROM SINGLE-PHASE POWER SOURCE

## STATIC CONVERTER

- 2/3 POWER
- MOTORS ONLY

THE STATIC CONVERTER RUNS MOTOR LOADS ONLY - AT 2/3 RATED HP. IT IS THE WORK HORSE FOR COUNTLESS THOUSANDS OF REGULAR SHOP MACHINES SUCH AS MILLS, LATHES, ETC. THE STATIC CONVERTER IS A GREAT CHOICE WHEN FULL POWER IS NOT NEEDED.

CONSULT PHASE-A-MATIC, INC. TO SEE IF THIS IS THE RIGHT CHOICE FOR YOUR APPLICATION

\*20% FOR USA BOUND MOTORS

## Need 3-phase power?

GET CONVERTED  
WE'LL HELP YOU!

SINCE 1965  
OVER 45 YEARS  
EXPERIENCE IN PHASE  
CONVERTER SYSTEMS

MOST MODELS  
IMMEDIATE DELIVERY  
FROM STOCK

RUN ANY THREE-PHASE  
MACHINE AT ANY  
SINGLE-PHASE LOCATION.  
GREATER OPPORTUNITIES  
FOR YOUR BUSINESS,  
YOUR FUTURE

661-947-8485

FOR 46 YEARS  
PHASE-A-MATIC, INC. HAS BEEN  
PROVIDING PHASE CONVERSION  
FOR THE HOME SHOP MACHINIST,  
THE INDUSTRIAL MACHINIST,  
THE FARMER IN AGRICULTURAL USE,  
FOR FOOD PROCESSING EQUIPMENT,  
THE WOODWORKING INDUSTRY,  
THE METALWORKING INDUSTRY,  
MEDICAL EQUIPMENT, ELEVATORS,  
RADIO TY TRANSMITTERS - FOR  
VIRTUALLY ANY THREE PHASE  
LOAD TYPE.

## ROTARY CONVERTER

- FULL POWER
- ANY 3-PHASE LOAD
- CNC AVAILABLE

THE ROTARY CONVERTER PROVIDES THE FULL POWER NECESSARY TO RUN ALL LOAD TYPES, WHETHER MOTOR, RESISTIVE, INDUCTION OR TRANSFORMER LOAD. OUR ROTARY CONVERTER WILL POWER IT.

THE CNC ROTARY CONVERTER IS AVAILABLE TO RUN EQUIPMENT THAT IS VOLTAGE-SENSITIVE SUCH AS CNC / PLC APPLICATIONS.

# CONDUIT REPAIR

made **QUICK & EASY**

Easy as...

1

Two half shell pieces close around the installed wire and cable

2

Interlocking joints provide water-tight seal

3

Solvent cement restores the conduit to its original form

**EPR Conduit Repair Kits** from Kraloy allow for fast and easy repairs of damaged conduit caused by actions such as earth excavation, horizontal and core drilling.

## Features & Benefits

- Restores structural integrity of conduit system
- Cost savings with fast and easy installation
- Repair of electrical, telecommunication, utility and CATV applications
- Available in sizes ranging from 1-1/4" - 6" and 24" length

Toll Free 800-265-1815 | [kraloyfittings.com](http://kraloyfittings.com)
